

TERA Company (Ukraine, Chernigiv) is a manufacturer of a wide range of sensors, controllers and other means of automatics. The enterprise has its own manufacturing facilities, office and warehouse with total area of more than 2000 square meters. About 90 people are employed in the company.

The enterprise was founded in 1988 on the basis of Chernigov radio devices plant. Later it purchased a production area at the appliance repair plant in Chernigov where the enterprise is based till nowadays.

The equipment produced by TERA is used for automation of water heating, ventilation and air conditioning systems, storage and transportation of food and pharmaceuticals, mushroom production, chemical industry, agriculture, etc.

Company's areas include:

- Departments for manufacture of sensors (metalworking, plastic molding, welding, mounting and assembly)
- Departments for manufacture of devices (PCB mounting, assembly and adjustment)
- Design department
- Control department
- Warehouse
- Office

Our enterprise has its own imported park of machine tools for producing a wide range of parts with high performance and quality.

For assembling electronic equipment TERA uses components of the world's leading manufactures. Production quality is controlled by its own control department. Due to the strong design bureau, the company constantly updates its products and expands the product range. The design bureau also leads successful developments of customers' specifications

Consumers of TERA's products are practically all Ukrainian enterprises which need the measurement and control of temperature, humidity or other physical parameters. The client base of company has more than 2000 customers.

Nowadays, TERA aims to develop the market of near and far abroad. The products are already supplied to Russia, China, Belarus, Azerbaijan, Turkmenistan, Great Britain, Egypt, Palestine, Georgia, Latvia, Armenia, Moldova, Iraq and Poland. The company supplies its products in China, Moldova, Egypt and Iraq through its official representatives.
