

Federal Ministry of Transport and Digital Infrastructure (BMVI)

Public Privat Partnership

The Logistics Alliance Germany (LAG) comprises the Federal Ministry of Transport and Digital Infrastructure and the LAG funding association. The aim is to evolve the marketing of Germany as a centre for logistics in cooperation with the logistics industry and with the participation of the federal states. The state secretaries (Vice Ministers) take active parts in the activities of LAG. Together with high-level members of the LAG funding association relevant target groups on the logistics markets important for Germany can be approached.

DB Cargo

Company profile

Deutsche Bahn AG provides services for mobility and logistics worldwide. DB Cargo BTT is Europe's leading integrated logistics services provider for chemicals and hazardous goods. As an independent subsidiary of Deutsche Bahn and sister company of DB Cargo, DB Cargo BTT provides multimodal solutions for chemicals and mineral oil.

Trans-Eurasia Logistics GmbH (TEL) is an international rail operator and expert in inter- and multimodal transport. TEL is well known as architect of rail networks between global markets like Europe, Asia and Middle East. The biggest shareholder of TEL is DB AG.
